

# Health Check Analytics Enablement

A **Modis Health Check** provides independent assurance and challenges the status quo. Our actionable recommendations enable you to optimise cost, mitigate risk and improve quality and performance.

**Assess** your organisation's readiness for analytics by examining **four key pillars**:

**Identify** your analytics starting point to provide business insight and the quick wins needed to form the cornerstone for a successful analytics business case.

**Recommend** key actions to commence or accelerate your analytics journey along with the toolsets, data capability, and critical process needed to successfully deliver analytics solutions.

## WEEK 1+2

- Stakeholder meetings
- Six interviews
- Three workshops

## WEEK 3+4

- Information collation (< three data sources)
- Develop recommendations
- Present findings

## Why engage Modis?

It starts with our people and approach. Establishing an analytics practice is complex, and when done correctly it can yield incredible business advantage. A failed analytics approach will result in excessive cost and, more importantly, lost business confidence.

Modis' practical approach using a proven methodology will guide you. We have unique experience delivering analytics solutions, managing data and data science teams, developing use case frameworks, high performance teams, and writing successful analytics business cases.

## About Modis

At Modis, we exist to connect people and businesses to the technology, solutions and opportunities they need to thrive in a rapidly advancing world.

We're here to help organisations and individuals collaborate, outperform and deliver better results than they ever could in isolation. In other words, to **#ConnectSmarter**
